MARVEL OZONE GENERATOR
This instrument generates enormous quantities of Ozone, which is purified by passing through the inhalant which is provided. A piece of cotton is saturated with this inhalant and placed in the receptacle. Squeezing the rubber bulb forces the Ozone bubbles through this mixture and is inhaled in the form of a vapor.
The Ozone permeates every cell in the lungs, destroying any germ life and soothing the inflamed tissues. For Anemia, Hay Fever, Coughs, Catarrh, Asthma, Bronchitis, Insomnia, Nervous Debility and Tuberculosis of the Lungs, there is no better treatment.
